

I respectfully urge you to Reject NAB Petition 04-160. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. XM satellite radio is the only radio service that offers me the programming I want when I am on the road travelling. There are places in the desert SW where satellite radio is the only station on the air.
